NHS Scoring Guidance

Recent guidance issued by NHS England has confirmed the move away from the 'Net Promoter' scoring methodology to a simpler 'Percentage Recommended' and 'Percentage Not Recommended' method.

The percentage measures are calculated as follows:

Recommended (%) =
$$\frac{\text{very good} + \text{good}}{\text{very good} + \text{good} + \text{neither} + \text{poor} + \text{very poor} + \text{don't know}} \times 100$$

Not Recommended (%) =
$$\frac{\text{very poor} + \text{poor}}{\text{very good} + \text{good} + \text{neither} + \text{poor} + \text{very poor} + \text{don't know}} \times 100$$

For further information about the selection of the scoring method please see the NHS FFT Review published in June 2014 here:

- ✗ Everything thing I needed to know was dealt with.

Not Recommended

- ✓ Nurse was very professional and efficient.
- ✓ *I get different advice everytime I speak to a different doctor. I've been prescribed and paid for the prescription for something which I am then told is not for the condition I have. This has been an ongoing issue for a while and I never get answers.*
- ✓ 1. The receptionist can be really rude....(apart from one lady who was very helpful and kind)2. I do not agree with the receptionist asking me what my issues is. I'm phoning to speak to the doctor, so would like to talk to the doctor. 3. The surgery is always empty when I attend but can never get a face-to-face appointment. 4. I have quite a few issues that needs looking at and would like to discuss this with the doctor in one sitting. Rather than booking so many appointments. Because I am not being seen for weeks and weeks on ends. And it's concerning at my age and with my ill health5. The lack of disability bays means I cannot park when the school parking is there.6. I feel like the doctor fob me off and not willing to discuss alternative treatment and give proper advise this is against my human rights!
- ✓ *I have been in pain in my leg for over 6 months I have not had any help from the practice this week after a lot of bother you are getting me an ultrasound but will it be cancelled like the other one you booked and if it's not how long have I got to wait the pain is getting me down I feel that you have really let me down*
- ✓ In July I had a very serious motorcycle accident that resulted in several severe injuries. I was airlifted from the scene to King's College Hospital where I was kept for 2 weeks for various surgeries. I was then released and expected to continue care with my local medical services. I have tried on 5 SEPERATE OCCASIONS since October to get a face to face appointment with my GP and still havnt been able to. The best I got, eventually was an appointment with a physiotherapist. (He was good). I need follow ups regarding the care of my injuries, that a phone call in the evening from a GP will not help and that is all I can get.
- ✗ *Poor management*

Passive

- ✓ The doctors response did not address my concerns and was passive.
